Summary :

I am **MD ABU SAYED BIN AMIN**, a final-year Diploma (CST) student at Thakurgaon Polytechnic Institute. I have completed React and am seeking opportunities as a **Front-End Developer**. I have practical skills in **HTML, CSS, Bootstrap, JavaScript, and React**, and I enjoy building responsive and user-friendly web interfaces. I am passionate about web development, self-motivated, and eager to learn new technologies and gain real-world experience.

Skills :

- **HTML5 - Semantic and well-structured markup.**
- **CSS3 - Mordern styling and responsive desing.**
- **Bootstrap - Responsive and mobile first layouts.**
- **JavaScript (ES6+) –dynamic and interactive functionality.**
- **React.js – component-based UI development.**
- **Git & GitHub – version control and code management.**
- **Basic API integration and JSON handling.**

Work Experience :

Industrial Attachment – Front-End Development (European IT Institute)

Duration: September 2025 – December 2025

Responsibilities:

- Developed responsive and reusable UI components using HTML5, CSS3, Bootstrap5 and JavaScript
- Assisted in building React.js components and handling state
- Debugged UI issues and ensured cross-browser compatibility
- Collaborated with designers to implement pixel-perfect layouts

Projects :

Portfolio Website (Personal)
- Modern Interactive UI.
- Fully Responsive.
- Dynamic Project Gallery.
- Functional Contact Form - Web3Forms API.
- Smooth Navigation: React-anchor-link-smooth-scroll.
- Technologies: React.js, JavaScript (ES6), Vite, CSS3, AOS Library, Web3Forms API.
  https://react-portfolio-sayed.netlify.app/

React Todo App (Vite + React)
- Users can **add, edit, and delete** tasks.
- Prevents blank input submission.
- Displays tasks in a structured **table interface.**
- Real-time update without page reload using useState().
- Technologies: React, JavaScript (ES6), Vite, CSS.
- **Code:** GitHub Link(https://github.com/abusayed09/ReactTodo).
- **Live: https://react-todo-app-sayed.netlify.app/**

Weather App (React)
- Users can search by city name to get live weather status.
- Displays temperature, humidity, wind speed & overall condition.
- Handles invalid city inputs gracefully**.**
- Uses asynchronous API calls with fetch() for real-time data.
- Technologies: React, JavaScript (ES6), CSS, OpenWeather API.
- **Code:** GitHub Link(https://github.com/abusayed09/Weather-App-React).
- **Live: https://react-weather-app-sayed.netlify.app/**

Educational :

- **Diploma in Engineering (Computer Science & Technology)**
  Thakurgaon Polytechnic Institute
  Session: 2021-22 | *Expected Completion:* Feb 2026

- **Secondary School Certificate (SSC)**
  Kurigram Govt. High School | Science | GPA: 4.78 | 2021

Certification:

Web Design & Development for Freelancing (Level-3) – National Skill Development Authority (NSDA), Bangladesh.

React.js Front-End Development – European IT Institute.

I declare that, the above stated Information is true to the best of my known.
